

SCHEDULE "R"

RESIDENTIAL SINGLE PHASE SERVICE

AVAILABILITY & APPLICABILITY: This schedule is available and applicable throughout the City's (hereinafter referred to as Utility) entire service area for only single phase service supplied where no more than 25 kVa of installed or allocated name plate rated transformer capacity is required to serve what is ordinarily designated and recognized as individual Single Family Homes, Apartments, Mobile Homes, and other individual Single Family Dwelling Quarters, and/or where the occupant operates a Home Occupation on the premises, as generally defined in Section 1260.35 of the City's Codified Ordinances.

This schedule is not applicable for service utilization that is ordinarily considered by public utility operation as being Non-Residential, Non-Home, or Non-Farm use in character, and where the occupant operates a business on the premises that does not meet the definition of a Home Occupation, as generally defined in Section 1260.35 of the City's Codified Ordinances.

All service under this Schedule shall be single phase delivered through a single set of service wires, the service location to be designated by Utility. Where the installed or allocated name plate rating of the transformer capacity exceeds 25 kVa per Consumer or where 3 phase service is furnished, Utility's General Service Schedule "GS" shall apply.

Where electric service is supplied for combined Residential and Non-Residential use, but which does not qualify for the Residential Rate (see above), the General Service Schedule "GS" shall apply for all such single metered service. However, at Consumer's option and at his expense, the wiring may be separated (subject to Utility's inspection and approval) and each class of service separately metered and billed in conformance to the applicable rate schedule.

All applications for service shall be in accordance with the provisions of the City's Standard Application Form and in accordance with the provisions set forth in this Schedule and also in accordance with the City's General Rules and Regulations for subsequent revisions thereof on file at the City's Utility Office, which General Rules are a part of this Schedule as if fully written herein.

NET RATE PER MONTH OR PART THEREOF PER SERVICE:

The Monthly Billing shall be the sum of the charges under the applicable rate set forth below:

Service Charge: \$5.00

Energy Charge: All kWh @ .0975 per kWh

POWER SUPPLY COST ADJUSTMENT: The Rates and Charges set forth above are subject to the adjustment set forth in the City's Rider "A" Power Supply Cost Adjustment and same shall apply.

EXCISE (KILOWATT-HOUR) TAX ADJUSTMENT: The rates and charges set forth in this schedule shall be increased by an amount equal to the excise (kilowatt-hour) tax imposed on the City's electric distribution system under Ohio Revised Code 5727.81. Said increase shall be automatically adjusted to reflect any change in the kilowatt-hour tax imposed by Ohio Revised Code 5727.81.

MONTHLY MINIMUM CHARGE: The Monthly Minimum Charge per Consumer shall be the sum of the charges set forth but not less than \$5.00. Said Minimum Charge shall not be reduced by application of a negative Power Supply Cost Adjustment.

OTHER TERMS AND CONDITIONS:

1. **Application for Temporary Service:** For temporary service, the City's General Rules and Regulations shall apply. The City reserves the right to require that Applications for Temporary Service be in the name of the Property Owner, who shall pay all electric service bills. Each time that service is established, the same shall be subject to the City's applicable connection or reconnection fee.
2. **Character of Service Furnished:** The type of service furnished under this schedule shall be single phase at a nominal potential of approximately 120/240 volts, 3 wire. The size of individual motors shall not exceed 15 HP name plate rating except where written permission is granted by the City. The City reserves the right to require that all motors 10 HP and larger shall be equipped with reduced voltage starting equipment so as to avoid unnecessary voltage surges on the City's system.

ELECTRIC UTILITY DEPARTMENT

City of Columbiana, Ohio

This schedule is not applicable for 3-phase service. If 3-phase service is supplied, the City's Schedule "GS" shall apply to all service, both single and 3-phase, or Schedule "LP" as appropriate.

3. **Use of Service:** Service under this Schedule shall not be resold or shared with others.

4. **Other Charges for Special Services:** See the City's Rules and Regulations as to charges not set forth herein, applicable for the Disconnection and Reconnection of Service and the Charges to be made for other Special Services furnished Consumers.
